4. AUSTRIA: Communists may shift to economic issues --According to US Charge Dowling in Vienna, the most important factors in the recent strikes and demonstrations in Vienna and eastern Austria were: (a) the overtness of Soviet instigation and assistance; and (b) the ineffectiveness of the Austrian police. Dowling reports that Austrian Government leaders are now thoroughly alarmed by the situation and determined to prevent a recurrence of the outbreaks. Dowling thinks the Austrian Communist Party may have decided to concentrated on economic issues; he suggests that the USSR may have decided that it can, with impunity, openly aid the Austrian Communist Party in exploiting economic issues, despite the obvious violation of the Allied Control Agreement. Dowling expresses the view that, if the USSR has decided upon such a course, "grave difficulties" can be created by imposing a severe strain on the Austrian Government and economy.
